

Company History

Alpha Technologies Ltd.

Dhaka – Bangladesh

Established in the year 1997

The company founded in the year 1997 with a view to set up an industry for small scale manufacturing of power solution equipment, specially Inverter (locally called as IPS) which can yield power backup to the community people where frequent load-shading (Blackout and Brownout) problems causes serious problems to the students in the town as well as in the villages and rural areas.

But the situation was not easy that time to find any reputable foreign company as partner for setup a factory with a view to produce Inverter on private level joint venture co-operation. While we visited a few companies in Asian countries for the purpose. But the initiative could not success. Then we decided to continue the business exclusively on import basis.

Year- 1998

King Power

Co-operation with **BEAM TECH ELECTRONICS CO. LTD.**, Taiwan.

Finally, in the year 1998, we signed contract with a Taiwanese company, named **BEAM TECH ELECTRONICS CO., LTD.** – who agreed to operate business on import-export trade co-operation basis through L/C. Then we started our business co-operation by importing 30 units of UPS from this company – as a 1st consignment. We become their sole distributor in Bangladesh.

Our business relation still existed with this company with brand name KING POWER. In course of time, we faced some deficiency with the product range of BEAM TECH. Because their product range did not include Double Conversion Online UPS.

Year-2002

Co-operation with **CELL POWER CO., LTD.**, Taiwan.

In the year 2002, we started import of Online UPS of smaller and bigger capacity from this company and some of those are still under operation. We become their Sole distributor in Bangladesh with brand name CELL POWER.

CHAMPION

Year-2007

Co-operation with **G. Z. Champion Group of Companies Ltd**, China.

In the year 2007, we started import of Offline & Online UPS and become an exclusive distributor of CHAMPION brand in Bangladesh. Our business relation still existed with this company.

Year-2013

Co-operation with **SERVO-MATIK Electronics**, Turkey

In the year 2013, according to greater demand from our clients for EU/USA origin AVR & UPS, we selected SERVO-MATIK brand – which is Turkey origin and started marketing of their Servo AVR / Static AVR up to 3000KVA & Online UPS up to 400KVA to our industrial and banking sector clients. We are receiving very good response from our clients on SERVO-MATIK UPS & AVR products.

Year-2015

In the year 2015, we also have established co-operation with other giant power brand APC (origin: France), where from we used to supply and support to our Industrial and Corporate Clients.

In the year 2015, we also have established our co-operation with another giant power brand EMERSON (origin: USA), where from we used to offer Online UPS and Precision Air Cooler to our target client of various industries including Banks and Data Centers.

Finally, we are committed to remain in this field of business years after years – when our valuable clients have confidence on our product, service and after sales support.

We have a strong Technical Team country-wide who are dedicated to serve our clients 24/7/365.

Our Call Response Time is 4 Hours or less.
